

Thankyou for looking
after all my financial
affairs and doing it in
such a modest, professional,
respectful and diligent
fashion.

I am truly grateful.

(And Neville + I both think
you're a great person!)

Regards, Ali Steer

Dear Darren,

It has always annoyed me
that accountants don't get
the recognition they deserve
for the work they do.

I am in awe of your broad
but also detailed understanding
of the complexities of
economics, finances,
accounting, taxation and
legal issues, especially with
their rapid changes and
associated IT developments.
